Polymer Degradation and Stability **40** (1993) 431–433

CONTENTS OF VOLUME 40

Number 1

Influence of tacticity on the thermal degradation of PVC. Part 7—Further approaches to the conformational mechanism through a temperature effect study 1
G. MARTÍNEZ, J. M. GÓMEZ-ELVIRA & J. MILLÁN (Spain)
Studies on the alkaline degradation of cellulose. III. Alkaline treatment in presence of anthraquinone 9
S. A. HELMY & H. A. ABD EL-MOTAGALI (Egypt)
Study of the effect of gamma-irradiation on the emission spectra of poly (methylmethacrylate) doped with rhodamine dyes 13
A. M. EL-AGRAMY & B. A. HENAISH (Egypt)
Electrical and spectral properties of some organic photoconductors 19
K. N. ABD-EL-NOUR, M. YOUSRY, A. EL-DEGWY & Y. ZAKARIA (Egypt)
Thermal decomposition of crosslinked polymers of some dimethacrylate esters 27
E. ANDRZEJEWSKA (Poland), P. KUSCH (Germany) & M. ANDRZEJEWSKI (Poland)
Quantum-chemical study of radical reactions in polymer systems I. Study of mechanism of regeneration of nitroxyl radical from substituted hydroxylamines (HALSes) 31
O. KYSEL, P. MACH & M. MICOV (Czechoslovakia)
Determination of the thermal flux intensity in a 'fire model'. Influence of this intensity on the thermal degradation of a polyurethane foam 37
E. DITTMAR & R. CAPRON (France)
Surface photodegradation and modification of some substituted polyacetylene films . . 45
E. T. KANG, K. G. NEOH, K. L. TAN (Singapore) & D. J. LIAW (Taiwan)
Photo-oxidation of polypropylene under load 53
R. BAUMHARDT–NETO & M. A. DE PAOLI (Brazil)
Mechanical degradation of polypropylene: Effect of UV irradiation 59
R. BAUMHARDT–NETO & M. A. DE PAOLI (Brazil)
Electrical conductivity of poly(nickel methacrylate)-I 65
F. A. KHWAJA, M. DIN & M. ZULFIQAR (Pakistan)
Photoetching and modification of organic polymer surfaces with vacuum UV Radiation 73
G. A. TAKACS, V. VUKANOVIC, D. TRACY, J. X. CHEN, F. D. EGITTO, L. J. MATIENZO & F. EMMI (USA)
Studies on the acid degradation of cellulosic fibres. I. Behaviour in hydrochloric acid–zinc chloride solutions 83
S. A. HELMY & H. A. ABD EL-MOTAGALI (Egypt)
Thermal degradation of poly(vinyl chloride)/Poly(α–methylstyrene-acrylonitrile) blends 91
T. KOVAČIĆ, I. KLARIĆ, A. NARDELLI & B. BARIĆ (Croatia)
Radiation-induced crystal defects in PTFE 97
X. ZHONG, L. YU, W. ZHAO, J. SUN & Y. ZHANG (People's Republic of China)
The comparative effectiveness of some commercial antioxidants as studied by lyoluminescence 101
S. JIPA, R. SETNESCU, T. SETNESCU, C. CAZAC, P. BUDRUGEAC & I. MIHALCEA (Romania)
The thermal behaviour of cured epoxy-resins. The influence of metallic fillers 109
G. SÁNCHEZ, Z. BRITO, V. MUJICA & G. PERDOMO (Venezuela)

Polymer Degradation and Stability (**40**) (1993) © 1993 Elsevier Science Publishers Ltd.

The radiation stability of perfluoroalkoxy resin 115
X. ZHONG, L. YU, W. ZHAO, Y. ZHANG & J. SUN (People's Republic of China)
On the mechanism of initiation in the radiation–induced oxidation of polyethylene . . 117
A. A. DALINKEVICH, I. M. PISKAREV & Y. A. SHLYAPNIKOV (Russia)
Studies on Cr III-cellulose acetate complexes 121
A. K. ABD EL-HADI & S. A. HELMY (Egypt)
Thermal degradation of poly(methyl methacrylate)-poly-4-bromostyrene blends and methyl methacrylate-4-bromostyraene copolymers 125
A. RINCON (Venezuela) & I. C. McNEILL (UK)
Book review
Handbook of Polymer Degradation. Edited by S. Halim Hamid, Mohamed E. Amin & A. G. Maadhah. Marcel Dekker Inc, New York 137
(Reviewed by N. Grassie)
Corrigendum 139
Calendar of events 141

Number 2

Thermal degradation of polymethacrylonitrile 143
D. J. T. HILL, L. DONG, J. H. O'DONNELL, G. GEORGE & P. POMERY (Australia)
Stability of water-soluble polymers in the presence of corrodible materials 157
A. AUDIBERT & J. LECOURTIER (France)
Current trends in mode of action of hindered amine light stabilizers 167
F. GUGUMUS (Switzerland)
Chemical and photochemical behaviour of phenolic antioxidants in polymer stabilization—A state of the art report, Part I 217
J. POSPISIL (Czechoslovakia)
Mechanisms of antioxidant action: polymer–bound hindered amines by reactive processing, Part III Effect of reactive antioxidant structure 233
S. AL-MALAIKA, G. SCOTT & B. WIRJOSENTONO (UK)
The degradation and stabilisation of solid rocket propellants 239
P. BUNYAN, A. V. CUNLIFFE, A. DAVIS & F. A. KIRBY (UK)
Effect of gamma radiation on photoluminescence spectra of polymethylmethacrylated doped with some divalent *nd* ^{10}-cation complexes of diphenylthiocarbazone 251
A. M. EL-AGRAMY & B. A. HENAISH (Egypt)
Thermolysis of alternating ethylene-carbon monoxide copolymer 257
J. C. W. CHIEN & A. X. ZHAO (USA)
Thermal degradation of γ-irradiated polymers—1. Poly(methylmethacrylate). 263
M. A. RAUF & I. C. McNEILL (UK)
The effect of zinc hydroxystannate and zinc stannate on the fire properties of polyester resins containing additive-type halogenated flame retardants 267
F. ANDRE, P. A. CUSACK & A. W. MONK (UK)
Analysis of the reactivity of the polyene chain and polyacetylene 275
V. M. KOBRYANSKII (Russian Federat.)
Calendar 283

Number 3

Study of the thermal degradation of poly(furfuryl methacrylate) by thermogravimetry. 287
C. PENICHE, D. ZALDÍVAR (Cuba), A. BULAY (Russia) & J. S. ROMÁN (Spain)
Investigation of the degradation of commercial polyoxymethylene copolymer in water service applications 297
M. ÖNER & D. H. WHITE (USA)

Dielectric properties of some photo crosslinking acrylate ester copolymers 305
S. H. EL-HAMOULY, S. M. HAMZA & K. N. A. EL-NOUR (Egypt)
The effect of melt-processing on the degradation of selected polyhydroxyacids: polylactides, polyhydroxybutyrate, and polyhydroxybutyrate-*co*-valerates 313
S. GOGOLEWSKI, M. JOVANOVIC, S. M. PERREN (Switzerland), J. G. DILLON & M. K. HUGHES (USA)
A heterogeneous model for the thermal oxidation of solid polypropylene from chemiluminescence analysis 323
M. CELINA & G. A. GEORGE (Australia)
Antioxidant action in polymers: The role of 'inert' compounds in inhibited oxidation . 337
Y. A. SHLYAPNIKOV & A. P. MAR'IN (Russia)
Thermal degradation of blends of polystyrene and poly-4-methoxystyrene with bisphenol A polycarbonate 343
A. RINCON (Venezuela) & I. C. McNEILL (UK)
The role of humidity in the photooxidation of acrylic melamine coatings 349
D. R. BAUER & D. F. MIELEWSKI (USA)
Chlorine substitution in poly(arylamine)s during synthesis and protonation in hydrochloric acid 357
K. G. NEOH, E. T. KANG & K. L. TAN (Singapore)
Solubility of additives in polyethylene and aliphatic polyamides. The effect of oxidation 365
T. V. MONAKHOVA, A. P. MAR'IN & Y. A. SHLYAPNIKOV (Russia)
Preparation of photoinitiator-bound celluloses and their reactivity 369
H. KUBOTA, T. YAMAGUCHI & T. TANAKA (Japan)
A study of the photolysis of a commercial hindered amine light stabilizer 375
P. JIANG-QUIN & C. SONG (China)
DC conduction in chloroprene rubber (CR) 379
A. ABO-HASHEM (Egypt)
Effect of γ-irradiation on the refractive indices and optical absorption of Poly (Vinyl Alcohol) doped with $NiCl_2$ and $CrCl_3$ 385
M. A. KHALED, F. SHARAF, M. S. RISK & M. M. EL-OCKER (Egypt)
Concerning the diffusion model of the protective action of additives in polymeric coatings 389
V. S. MARKIN & G. E. ZAIKOV (Russia)
Diffusion in polymers with varying accessibility 395
V. S. MARKIN & G. E. ZAIKOV (Russia)
Thermooxidative aging of crosslinked linear polyethylene: Stabilizer consumption and lifetime prediction 399
V. LANGLOIS, L. AUDOUIN, J. VERDU & P. COURTOIS (France)
Effect of *p*-toluensulfonic acid on oxidation of polyethylene and polyethylene-poly-*p*-methylstyrene blends 411
I. G. KALININA, K. Z. GUMARGALIEVA & Y. A. SHLYAPNIKOV (Russia)
The thermal behaviour of lignins from wasted black pulping liquors 417
H. EL-SAIED & A. M. A. NADA (Egypt)
Thermal degradation of poly(4-chloromethyl-α-acetoxystyrene) and poly(4-chloropropyl-α-acetoxystyrene) 423
B. BOINON, J. BRIGUI & J. P. MONTHEARD (France)
Calendar 429
